

ALLEY BLOCK 4217 PETROLIA LINE

**Year Current Building
Erected: 1887**

This building's history dates back to 1887. H.B.B. Alley's original store was a victim of a severe fire and in December of 1887, his new brick building was complete. Alley's own dry goods business along with Dr. Walton's Chiropractic Office moved in.

Between the years of 1920 to 1966, the Department of Agriculture had its offices in Alley Block until new accommodations were built across the street in 1966.
